## Kilimanjaro International Institute for Telecommunications, Electronics and Computers

## ABOUT KIITEC

KIITEC is a new technical institute dedicated to providing accessible, high quality instruction and technical experience to meet the needs of its students.

KIITEC was created by the FTE ( Foundation for Technical Education), a Swiss based non-profit organization, funded by private donators.  Also supported by **Ingénieurs du Monde**, a non-governmental organization approved by the United Nations, the vision of KIITEC is to become the leading  education center for Telecommunications, Electronics, and Computers within Tanzania and in the East-African region.

KIITEC is an international institute: School staff is made of national and international teachers, in order  to provide, on a regular basis, updating of our training programs to the latest evolutions of technology, and facilitate the transfer of such technology. Moreover, we have established collaborations with other schools in the world, Sowela in the USA, Lycée du Grésivaudan in France, and several Institutes In Switzerland.

## Why choose KIITEC ?

**A rewarding technical degree** to find a well paid position, even to create your own job

**A top-quality instruction** based on advanced knowledge and hands-on education

**A state-of-the-art training** benefiting from the latest equipments

**An international environment** through partnerships with American and European professionals

The construction of the institute will be completed in summer 2005. We are currently finalizing the official registration process and we will board our first students as of October 1, 2005 and arround 2008 to refine for the second phase of the processus. .
